COLORADO IS RAGING.

Some Towns Along Its Banks Already under Water.

IS RAPIDLY RISING.

A Rise of Twenty Feet Occurs at Austin—Great Dam There in Danger. Wrecked Houses Floating Down the Stream.

Austin, June 8.—The Colorado river is on a rampage. The greatest flood is on north of this city since 1869, and great destruction is looked for all along the river.

The river here rose 20 feet yesterday. Water is flowing over the dam in a torrent to the height of 12 feet and is steadily rising. The powerhouse here will be in danger if the rise keeps up 12 hours.

Thousands of people have visited the dam. The sight is worth going a long distance to witness. The torrent of water pouring over the crest is a Niagara in miniature. The roar is deafening and the seething pool below the dam indicates that the foundation of the stone structure might be imperiled should the flood continue long.

When the rise commenced two of the floodgates of the dam were opened in order to relieve the tremendous pressure against the stone masonry. An effort was made to open the third floodgate, but the water had risen so rapidly that it could not be accomplished.

Advices received say that the tributaries of the Colorado are on a rampage and that great destruction of property has already occurred in the bottoms through which they pass.

The town of Marble Falls is almost entirely under water and the waterworks plant there is almost completely destroyed. The aggregate value of property losses in that town on account of the flood will reach over $15,000.

The town of Kingsland, 100 miles above Austin, is also partly under water.

A number of ranch houses have been washed by here in the flood.

FIRE AT AUGUSTA.

It Sweeps Through the Business Portion Destroying Much Property.

Augusta, Ga., June 8.—The largest fire in Augusta's history in many years burned over the same district that was swept seven years ago when the Augusta Chronicle was destroyed. Several buildings that escaped at that time are now smoking ruins. The losses aggregate $250,000.

The fire started in the drugstore of Davenport & Phinzy. A negro was mixing a pot of venus turpentine which is hard rosin melted and mixed with turpentine. Fire got into the pot and flames spread so rapidly that the employes in the front part of the store barely had time to escape.

During the height of the excitement 10,000 rounds of cartridges in the city armory, which was also burned, begun to explode and for an hour there was an incessant fusillade of shots.

Burning embers were carried by a high wind a block away and two or three frame buildings were burned. Three cotton warehouses were on fire at various times, but were fortunately saved before the flames made much headway.

Harrison Courthouse Burned.

Marshall, Tex., June 8.—Harrison county's courthouse was destroyed by fire yesterday afternoon. The cost of the building was $45,000; insured for $25,000. The furniture cost about $8000; insured for $2000. The fire was caused by a tinner turning over his gasoline soldering pot. It is thought that the county records are safe, as they are in the vaults.

CONSTABLE KILLED.

Sam Breeland Assassinated at His Home Near the Town of Perry.

Waco, Tex., June 8.—Sam Breeland was assassinated at his home, near Perry. The murdered man was constable of the precinct. He has been taking an active part in bringing about the prosecution of whitecappers.

J. B. Breeland, brother of Constable Breeland, says his brother was slain with a shotgun, his head being nearly blown from his body.

Wreck on the Missouri Pacific.

Atchison, Kas., June 8.—An eastbound mixed train on the Central branch of the Missouri Pacific was wrecked a mile out of Goffs, and between 25 and 30 passengers injured, but none seriously. From some unknown cause the smoker and chair car became derailed while the train was going at full speed and the cars, well loaded with passengers, toppled over into a slight embankment. The passengers were hurled in every direction by the sudden overturning of the coaches, which fortunately tore themselves loose from the balance of the train.

A NEGRO LYNCHED.

He Confessed He Had a Hand in the Hubbard Murder.

Huntsville, Ala., June 8.—Will Hill, a brother of Alex Hill, the negro who killed Mrs. Hester Hubbard near Eoline Monday, was captured near McCulley's mill Tuesday, and taken near the scene of his crime and killed. His head was shot into a shapeless mass. He confessed he was with Alex Hill at the time Mrs. Hubbard was killed and that he and Alex went to Hubbard's for the purpose of killing Mrs. Hubbard. They had heard her husband was absent and that there was a large sum of money in the house. The crowd first hanged him to a limb and then cut him down. He was then tied to a tree and a volley fired into his head. The husband of the murdered woman was present.

A second posse is hunting Alex Hill. He is reported to have gone in the direction of Bessenger, while other advices say he is doubling back to Tuscaloosa.

There is much excited talk of lynching and even of a race war, but this is for the most part exaggerated. The negroes are greatly excited over the occurrence.

Hubbard, who was shot at the time his wife was killed, will recover.

DALY IS DEAD.

The Great Theatrical Manager Dies Suddenly at Paris.

Paris, June 8.—Augustin Daly, the well known theatrical manager, died suddenly here late yesterday afternoon. Mr. Daly's death was due to heart failure. He arrived here last Saturday and was stopping at the Hotel Continental.

Mr. Daly was born in Plymouth, N. C., July 20, 1838. His education was received partly in Norfolk, Va., and in the public schools and in New York

AUGUSTIN DALY.

City. He began his career as dramatic editor in New York and later opened a theater. His career as a dramatic author began in 1862 and he produced many original plays.

He achieved also a notable distinction in the presentation of Shakesperian dramas. He was a well informed student of the dramatic literature of many nations.

MANY ARE EXCLUDED.

Modern Woodmen Refuses a Number of Men Insurance in That Order.

Kansas City, June 8.—At the second day's session of the eleventh biennial convention of the Modern Woodmen of America an amendment was offered to the bylaws in an attempt to secure a reconsideration of the action of the convention Tuesday in excluding distillery and brewery employes from the order. Several speeches were made. The convention finally, for a second time, refused to alter the old law and the decision was received with deafening applause.

The convention then decided to exclude from the benefits of insurance any members who should in the future become brakemen or conductors of freight trains, locomotive firemen or engineers, switchmen, yardmasters, yard foremen, miners, mine inspectors, mine track layers, pit bosses, jockeys, employes in factories making explosives, glass blowers, oilwell "shooters," aeronauts, sailors, plow grinders, professional baseball players, professional firemen, submarine workers, soldiers in time of war, workers in smelters and steel blasters.

Senator Jones Improving.

Washington, June 8.—A letter has been received from Senator James K. Jones of Arkansas, chairman of the national Democratic committee, who went abroad some time ago for his health, in which he says that he has been so greatly benefitted he now feels better than he has for the past 10 years.

Car of New Texas Wheat.

St. Louis, June 8.—A carload of new wheat, the first of the crop of 1899, was received here from Waco, Tex. It graded No. 2 red winter and tested 61 pounds to the bushel. On being auctioned off on 'change it brought 90 cents a bushel, 15 cents more than cash wheat is quoted.

In Favor of Mrs. Greea.

Chicago, June 8.—Mrs. Hetty Green of New York was given a decision in the United States court of appeals Milwaukee quieting the title to property in this city on which she held mortgages to the total value of which is said to be close to $1,000,000.

Shooting at Fort Worth.

Fort Worth, Tex., June 8.—Pat Jordan, who has been a waiter in a down town restaurant and who was one of Captain George West's troopers, received a wound in the abdomen at 2 o'clock this morning. The extent of the wound cannot be determined. No arrest.

Strictly Nonpartisan Call.

Austin, June 8.—It is understood that the call issued by Governor Sayers for a conference of governors and attorney generals to consider the trust question is strictly nonpartisan, and it is very desirable that each state shall be represented at the conference by its governor and attorney general without regard to the political party with which those officers may be affiliated or the views they may entertain on the subject.

PROPOSALS.

Sealed bids will be received at the president's office of the A. and M. College until 2 o'clock p. m. Saturday June 17th 1899.

1st. For fresh beef, pork and mutton to supply said college during the ensuing scholastic year. The beef furnished must be corn fed for the months of January, February, March and April. All pork to be corn fed.

2nd. For three thousand (3000) cords of good, merchantable wood, to be delivered on the college grounds at such place or places as may be designated by the president, and subject to his approval as to quality and measurement.

A certified check for $250 must accompany each bid as a pledge of good faith and ability of bidder to make a satisfactory bond in a sufficient sum to insure faithful compliance with the contract.

The right to reject any and all bids reserved.

"TIME IS MONEY."

"The Longest Way Round Is Sometimes The Quickest Way Home."

These wise old saws apply to the new fast train service now in effect via the Great Rock Island Route. while not the short line everywhere, we "get there," which is the main point to be considered.

A whole business day saved is one argument. A maximum of comfort by reason of through service, modern equipment; rock ballast; in short, an up-to-date railway, are several other arguments to assist you in deciding how and via what route to purchase tickets.

The new schedule is as follows: Leave Fort Worth, 8:25 a. m.; arrive Lincoln, 7:10 a. m.; arrive Omaha, 9. a. m., connecting at latter point with train through Iowa; arriving Des Moines; 4:39 p. m.

The Concert.

The concert given by the pupils of Miss McLelland's music class as a band benefit at the Orpera house last night was a pronounced success. The program was complete, well arranged and highly entertaining, opening with the beautiful cantata, "A Dream of Fairyland," as a first part. There were eleven numbers in the second part introducing musical numbers, vocal and instumental, and closing with the tableaux of the Virgins.

Miss McLelland's pupils evince careful training in music, and the result of their work last night must have been as highly gratifying to parents as it was pleasing and entertaining to the audience in general. Many of the pupils give evidence of a high order of musical ability.

There was a good attendance and the receipts were $46.75.

The Cleburne Enterprise says: "Cleburne now has the largest railroad shop south of Topeka, Kan. Even St. Louis has nothing of the nature to compare with the Santa Fe company's plant here, which is about completed and will be occupied by machinery and workmen within the next ten days."

THE OLD DEPOT.

When the reporter returned from the midday meal yesterday he was delighted to observe a number of men shoveling the shingles off the old depot roof, while others with crowbars and handspikes, were demolishing the walls, and by night the old land mark was a total wreck. We are glad to see it go. Its day and generation had passed, and it had outlived its usefulness. The more imposing and thoroughly modern structure which takes its place is a great relief to the traveling public and to the people of this city who have abided in patience the years of its coming. And yet there will be those, the imaginative and fanciful, those who with the brush of sentiment love now and then to dust the pictures of the past, who will miss the old depot and grope blindly while viewing the new for a broken cord that bound them to the past. Ah, what joys and sorrows have here met face to face, and how have human heart strings thrilled with ecstacy or quivered in unspeakable grief. Those long absent have here returned to welcoming arms, while others have gone maybe to return no more. Here have the lover-husband and his bride begun that life which to all at such a time must seem "a grand, sweet song." Slowly from here the funeral cortege often has moved away. Here have been silent joys and griefs, heart overflowings or tragedies fought out alone, of which the world knew naught; and time, whirling and eddying along, has never left a ripple on its surface to mark the fleeting hour.

Pickles and preserves, all kinds, in bottles, just received at John B. Mike's. These goods are fine. 146tf

ALEX HILL CAUGHT.

He Confesses the Crime and Is Being Taken to Jail at Jasper.

Birmingham, June 8.—Alex Hill, the murderer of Mrs. Rufus Hubbard, of Centerville, and a brother of Will Hill, his accomplice, who was lynched at the Hubbard home Tuesday, was captured near Dover, Walker county. He confessed the crime. The parties who made the arrest started with him for jail at Jasper. A reward of $500 was offered for his capture. He is in charge of a constable and probably will reach the jail in safety.

Japs Going to Hawaii.

Victoria, B. C., June 8.—Advices from Yokahoma state that nearly 7000 laborers will leave Japan during the current year under contract to work on Hawaiian plantations. This is the result of permission given by the United States government for the importation of Japanese to the new island territory under contract to assist in the cultivation of seven new and immense plantations and offset in a measure the large Chinese population already in the field. An attempt to augment Chinese labor by the smuggling in of coolies is understood to be contemplated and trouble may result.

Troops For Alaska.

San Francisco, June 8.—Companies G and L, of the Seventh infantry, which are to go as the command of Colonel Ray to Alaska, have arrived at Benicia barracks. Company A, of the same regiment, may be added to the expedition. This company is still at Fort McPherson, Ga. There is no chance of the Third artillery having to go to the north. The other detailing battery I, Captain Henry C. Danes, has been revoked. Battery B, of the Third artillery is to be sent immediately from fortress Monroe to Angel island, in this harbor.

Woman Shoots Herself.

Chicago, June 8.—Mrs. Belle Marshall Roloson, wife of R. W. Roloson, for 25 years a prominent and wealthy member of the board of trade, committed suicide at her home, by shooting herself in the right temple. Death resulted instantly. Mrs. Roloson had for some time been a sufferer from nervous prostration. Fear of not regaining her health had made her despondent, it is thought, and this, aggravated by the heat of the last few days, unbalanced her mind and caused her to end her life.

Daly's Body Goes to London.

Paris, June 8.—The remains of Augustin Daly, who died suddenly Wednesday afternoon at the Hotel Continental, has been embalmed and will be sent to London, where the body will arrive Saturday morning. The funeral services will take place at a Catholic church in London and then the body will be sent to New York. There will be no religious ceremony here.

Fell Down a Shaft.

Washington, June 8.—John J. Lalor, translator in the office of director of the mint, lost his balance and fell from the second floor in the treasury department down the shaft which the stairway surrounds, to the basement, probably receiving fatal injuries. Mr. Lalor is a well known writer of political economy and author of an encyclopedia on that subject.

Arrested for Slashing a Man.

Quincy, Ills., June 8.—Albert Hoskins, was arrested here to answer the charge of attempting to kill Charles Hand on Green Bay island, opposite Fort Madison. The two men had an altercation over a small amount of money and Hoskins slashed Hand with a knife. Hand is reported to be dangerously wounded.

Was a Complete Failure.

London, June 8.—Advices received here from South Africa emenating from British sources show more completely the utter failure of the recent conference at Bloemfontein, between President Kruger and the British High Commissioner, Sir Alfred Milner. London afternoon papers all refer to the dangerous situation.

Bought Phosphate Lands.

Charleston, June 8.—The Bradleys of Boston are said to have purchased a large tract of phosphate lands in Ashepoo and Edisto rivers, about 50 miles from this city. The purchase includes 6000 acres of land bearing a high grade of rock, and is a majority of unmined lands left in the state.

Texans the Lowest Bidders.

New Orleans, June 8.—Bids were opened here by United States Engineer Quinn for the improvement of Bayou Plaquemine, the cost of the work being estimated at $2,500,000. Charles Clark & Co. of Galveston, Tex., were the lowest bidders.

Gold Standard Possible.

New York, June 8.—The Journal's Washington special says the currency legislation of the new congress will establish the gold standard.

Fifty-one Dozen Chickens in Twenty Minutes.

Yesterday morning Mr. John B. Mike had a special ad for chickens and eggs in the Eagle, the sale being advertised to take place between 10 and 11 o'clock a. m. and it did take place too. The way they sold chickens and eggs was a cantion, and surprised even such an experienced advertiser as Mr. Mike. At twenty minutes past ten Mr. Mike telephoned the Eagle that he had sold out all his chickens—fifty-onedozen—as well as 120 dozen eggs, the sale having begun promptly at 10 o'clock. Mr. Mike stated later that orders kept pouring in after the supply of chickens was exhausted, and he could have sold twice as many if they had been on hand. Mr. Mike supplied the chickens and made the prices and the Eagle did the rest. Whenever your goods and prices are right, you may depend upon it, advertising will pay.

Time He Was Married.

A recent wedding in the provinces was so much interrupted that the friends of the wedded pair found special reason to congratulate them when the ceremony was at last over. All went merrily until the bridegroom was called upon to produce the wedding ring. In vain he felt in his trousers pocket for the indispensable article. Nothing could be found except a hole through which the ring had evidently fallen into the high boot which is affected by young men of the district. What was he to do?

"Take your boot off, said the parson.

The suspense and silence were painful.

The organist, at the priests bidding, struck up a voluntary.

The young man removed his boot, the ring was found, also a hole in his stocking and the worthy minister remarked, evidently with more than the delay of the ceremony in mind:

"Young man, it is time you were married."—Spare Moments.

CUBAN BANDITS.

They Terrorize Towns in Puerto Principe Province and Stopped Work.

Havana, June 8.—Manuel Yribas, manager of the Cardenas-Juro railway, who arrived in Havana, says brigandage continues uninterrupted in Puerto Principe province and western Santiago. He says the country around Puerto Padre, Nuevitas, Gibara and Holguin is completely at the mercy of the bandits. Cattle have been stolen from the farms and other outrages have been committed. Most of the farmers have suspended cultivation in San Manual and a sugar estate near Puerto Padre owned by Mr. Pla has been obliged to shut down.

Cuban soldiers, mostly negroes, hang around the villages but won't work, and the robberies are ascribed to them, but no attempt is being made to prosecute them. A strong feeling exists there that the United States should send soldiers to protect the people. Juan Potous, Spanish vice consul here, says the Spaniards are receiving no protection from the United States. There is no recognized consul in Havana at present, and he cannot put the claims before General Brooke. He has made a statement to the Spanish minister at Washington.

It is learned from towns in the country that Spaniards are suffering many cruelties, but make no complaint through fear of being killed.

In Caimetro three were killed a month ago, but no notice was given the authorities. On Sunday night four black Cuban soldiers showed where they killed the Spaniards in a cafe, boasting of the deed. These men are sacking the country in the vicinity. American cattle dealers have stopped shipping stock to points any distance outside of the large cities, and ranchmen who can get into Havana come in every night.

Americans who have invested money are urging the military authorities to put small garrisons in all the towns.

The feeling outside of Havana is growing stronger every day that a permanent military force or annexation is the only thing that will rebuild the country.

QUESADA REWARDED.

He Is Appointed Special Commissioner for Cuba at Washington.

Havana, June 8.—Governor General Brooke has issued orders appointing Senor Gonzales de Quesada special commissioner for Cuba at Washington with a salary of $5000.

Those who believe that the policy followed by General Gomez is a wise one—and they include a majority of the most prominent Cubans in Havana—are much pleased with this appointment, considering it a just reward of years of faithful service. On the other hand the former members of the military assembly and those who always oppose everything the government does, complain bitterly, saying the appointment is an insult, on the ground as they allege, that Senor de Quesada is a traitor to the real interests of the island, which will not be safe in his hands. They assert also that he is an American in his ideas, holding views which are not suited to Cuba.

Wanted Pay Without Guns.

Havana, June 8.—Colonel Randall paying the Cuban soldiers at Matanzas, has found that a majority of them turned over their arms sometime ago to General Pedro Betancourt, the civil governor of Mantanzas. A few of them carried certificates, but the majority did not. Consequently Colonel Randall experienced much difficulty and only paid 37 men, though over 300 were in waiting and wanted their money.

Hackmen here all struck for higher pay which causes great inconvenience to the general public.

Governor General Brooke has instructed civil governors to issue passports when requested to do so, provided the island courts have no charges against the petitioner. Previous identification however, is necessary.

Another Hamill Mystery.

Chicago, June 7.—E. Hamill, nephew of E. A. Hamill, president of the Corn Exchange National bank, was found in a hut on the lake shore with a bullet hole in his head. He refused to give any explanation, and was sent by the police to a hospital. Two months ago Hamill's father was found badly injured and unconscious on the floor of the basement in the Sherman House. He was found by an attendant and removed to a hospital. Considerable mystery is attached to the case, and the elder Hamill refused to make an explanation as to how he came by the injury. The fact that the father was injured only a short time ago, and also refused to say how he came by the injuries, leads the authorities to believe that a mystery is yet to be solved. Hamill is a noted athlete and member of the Chicago Athletic association. The police theory is that young Hamill was shot by an angry husband.

Fatal Engine Runaway.

Colorado Springs, Col., June 8.—Colorado Midland engine No. 1 became dead at Newitt, and escaping went down the steep Ute Pass. En route it crashed into a passenger train in rounding a sudden curve. Fireman George Beswick was instantly killed and Engineer Arthur Lelone perhaps fatally injured in the wreck of the two engines that resulted.

Schurman Is Coming Home.

Washington, June 8.—Schurman is coming home. The other members of the Philippine peace commission will come later, one at a time. The commission can do no good while the army is in the field. The subjugation of the Filipinos will be a military task.

THE END WAY OFF.

Situation in the Philippines Not Yet Very Encouraging.

KEEPING BACK NEWS

Washington Officials Hold up All Information and Absolutely Decline to Give Out Some of the Dispatches.

Washington, June 8.—"The end of the war is a long way off," writes Brigadier General Hall, now on duty in the Philippines, in a letter to a friend in this city. The letter was written about the time Aguinaldo was making his overtures for peace, and shows that our army officers had little faith in the sincerity of the request for peace negotiations.

The war department declined to make public any dispatch from General Otis regarding the situation. He has been instructed to strictly censor all news and to be consistent. The war department, since the departure of Secretary Alger, has declined to publish anything received from the Philippines.

Even casualty lists are held up for a day or two before being posted on the bulletin board. The department is pursuing the same policy as that for a month or six weeks prior to the attack of the Filipinos upon the Americans.

Acting Secretary of War Meiklejohn stated that while some advices had been received from General Otis he was not at liberty to make them public. The same reticence is displayed by Adjutant General Corbin. No dispatch has been posted from General Otis detailing the situation for more than a week. The indications are that the department will now endeavor to conceal everything.

No credence is attached to the London report that Aguinaldo defeated Gens. MacArthur and Lawton.

MESSAGE FROM OTIS.

Campaign at Morong Was Only to Run Out the Insurgents.

Washington, June 8.—The situation in the Philippines is described by Gen. Otis in the following cablegram:

"The result of the movements in Morong province was to drive the insurgents into the mountains, capturing Antipoli and other towns in that section with a point of land projecting into the bay. They retreated and scattered before our advance, leaving 25 dead on the field. Our loss, four killed and a few wounded, mostly slight.

"The inhabitants of the province profess friendship and ask for protection. Large numbers wish to enter Manila, but are refused as the city population is too rapidly. Leading natives throughout the island, including active insurgent leaders, seek permission to send their families to Manila, which is considered the only place of personal security.

"The Oregon volunteers request to defer the time of their departure until June 12. They will leave for Portland on the transports Ohio and Newport

"The Sixth infantry upon arrival will relieve the Californians at Negros.

The Hancock sails in a few day with the Nebraska regiment and some other troops."

BOSTON COMING HOME.

Has Sailed from Manila on Her Way to the Pacific Coast.

Manila, June 8.—The United States cruiser Boston, Captain Whiting, has sailed for San Francisco, via Nagasaki, Japan, with long service officers and men from various American warships.

The battleship Oregon will soon be stationed in Dagupan, Gulf of Lingayen, on blockade duty.

The United States gunboat Albany, one of the vessels purchased from Spain and commanded by Ensign Standley, captured three sailing vessels and one steamer off the Island of Negros. Nine of these boats, all of the Albany class, are now in commission and are doing good work in the shallow waters of the southern islands.

Favorable reports are still being received from the party of 15 Americans belong to the gunboat Yorktown headed by Lieutenant Gilmore of that vessel, captured April 12, by Filipinos not far from Baler. The prisoners are well and receiving fair treatment.

Aguinaldo Proclaims Himself Dictator.

London, June 8.—Special dispatches from Manila says it is reported there that Aguinaldo has dissolved the Filipino congress and has proclaimed himself dictator.

Crooks Captured at Muncie.

Muncie, Ind., June 8.—H. E. Curtiss, aged 64 years, half of which time has been spent in prisons, and one of the best known hotel workers in the country, was captured while in the act of robbing a number of rooms in the Kirby hotel. Curtiss was in his night garments when arrested by a posse composed of hotel guests, who had detected him in his operations. About 15 crooks, several of national reputation, have been captured by detectives thus far since the opening of the street carnival.

Lonely Trip to Manila.

San Francisco, June 8.—The 5-ton schooner Coke, has sailed from this port for Manila. Captain Freitch, the sole occupant of the little vessel, expects to reach the Philippines in 60 days.

TAKING DREYFUS ABOARD.

Dispatch Boat Goes to Take Him to the Cruiser Sfax.

Cayenne, French Guiana, June 8.—The dispatch boat Goeland left here at 2 o'clock this afternoon for Devil's island in order to take Dreyfus on board the cruiser Sfax, which is anchored off the island. The governor of Cayenne, issued orders Wednesday to the authorities of Salvation islands to prepare a quantity of coal necessary for the voyage of the Sfax, whose hurried departure from the island of Martinique only allowed her to take on board stores that she needed. The Sfax will probably leave for Brest tomorrow morning.

Dreyfus to His Wife.

Paris, June 8.—Mme. Dreyfus has received the following telegram from her husband:

"Leave Friday. Await with joy the moment when I kiss you."

CHAPLAIN UNDER ARREST.

Captain of the Twenty-fourth Infantry Causes the Arrest of Mr. Bateman.

Spokane, Wash., June 8. — Chaplain C. Bateman of the United States army, is under arrest at the army post. Capt. Batcheler of company M, Twenty-fourth infantry, ordered the chaplain to his headquarters and put him under arrest on Tuesday afternoon of last week, but until today the matter has been kept quiet. Charges have been filed with the war department by Captain Batcheler.

An investigation of these charges will be made this week. Chaplain Bateman is not willing to be quoted in regard to the affair. Captain Batcheler refuses to make any statement whatever as to why the chaplain was arrested or what charges have been preferred against him.

It is said the charges of the captain are first, that the chaplain refused to obey orders; second, that the chaplain assumed the authority of the commander of the post and ordered property removed from one side of the garrison to the other; and third, violation of section 62 of the articles of war. The general nature of this section gives the commanding officer an opportunity to bring up charges upon almost any grounds.

Alaskan Question Compromise.

London, June 8.—It is learned by the Associated Press that United States Ambassador Choate is hourly expecting the consent of the authorities at Washington to a compromise arrangements on the Alaskan question on lines of prospective settlement, and for the carrying on of the discussion in a high commission. While yielding in certain matters it is understood Mr. Choate is able to effect arrangements satisfactory to the United States. He is largely helped by the reasonable attitude assumed by the Canadians during the past week. Canadian High Commissioner Lord Strathcona and Mount Royal, secretary of state for colonies, Mr. Chamberlain, and Lord Salisbury. have agreed to the lines of compromise.

Stolen Goods Found.

Macon, Mo., June 8.—Deputy Sheriff William Stamper has returned with a wagon load of merchandise he had found in an old abandoned coal mine near Darksville, where it had been stored, it is alleged, by robbers who had been operating among the smaller towns of north Missouri. His search was made on information furnished by Jim Stewart, a half-breed Indian, now in jail here, who pleaded guilty and turned state's evidence. The merchandise consists of fine silks, clothing of all sorts, jewelry, cutlery and nearly everything carried in country stores. The officer took the informer with him, and together they dug their way into the old mine, the mouth of which had fallen in since it was last visited by the gang.

Bishop Hurst's Deed to His Wife.

Washington, June 8.—A deed recorded here by which Bishop John F. Hurst, of the Methodist Episcopal church, transferred through an intermediary to his wife, Ella Root Hurst, their fine home on Massachusetts avenue in the fashionable part of the city, caused a great deal of comment here. It is understood that the transfer is preliminary to a legal separation.

Steamers in Collision.

Green's Farm, Conn., June 8.—Sound steamer C. H Northam ran ashore at Bear Newcrook to keep her from sinking. While on a trip from New York to New Haven the steamer collided with the steamer Richard Peak, bound for New York. A hole of considerable proportions was stove in the Northam's bow, and the passengers were taken on board the Peak. No one was injured.

Falling Off of Americans.

Americans are not so numerous in Berlin, Germany, this season, as formerly, and this is especially true as to American students in music, the anti-American prejudices which were strong in Berlin during the war with Spain being probably accountable for this.

Bankers Try Sorcery.

Not being abe to trace anything in connection with the loss of Rs. 2,000 from the cash safe of the Surati Bazaar company, the directors recenty resorted to astrology and finally to sorcery. Every employe of the bazaar got a mouthful of rice to eat which had been previously put through some magic preparation, the belief being that if the person who had taken the money ate the rice some great misfortune would befall him. It is not recorded that any of the employes have yet met with a disaster.
